All food is cooked fresh to order so at busier times there could be a slight delay.

## About us

This former garage dates back to the 1950's and over the years it has seen many uses as a dealership for Hillman, Commer and Singer cars, a petrol station and a newsagents.

In 2011 the building was transformed into The Filling Station Cafe.

Our new menu takes all the favourites we are known for and makes them even better. We are working with more local producers and sourcing the very best ingredients we can. We will be changing the menu throughout the year to reflect seasonal changes in local produce.

During the summer we run regular classic car and bike events. We will also be hosting regular music nights, BBQs and bistro nights. Please follow our facebook or twitter for updates.
